Pipesales: NEW Global Online Marketplace to Buy and Sell Tubular Products

Marubeni-Itochu Steel Inc (MISI) is excited to introduce Pipesales.com, the global solution to managing surplus inventory and supporting a more sustainable future. Pipesales is a worldwide online marketplace to buy and sell quality tubular products. The platform connects organisations and facilitates the buying and selling process in a safe and secure environment.

MISI has group offices and subsidiaries in 92 locations in North America, South America, Europe, the Middle East and Asia/Oceania so customers can shop global and be supported locally providing peace of mind for a secure transaction.

Pipesales benefits both buyers and sellers. Sellers can be connected to a network of buyers, they can unlock capital from storing surplus stock, and transact in a safe environment where all the payments, contracts and logistics are managed.

Buyers also win, as Pipesales offers a large range of quality, readymade tubulars, and accessories to meet short lead time projects or solve urgent - under supply issues.

Moreover, buyers and sellers of Pipesales also contribute to a sustainable future for the industry and the world by contributing to a reduction in carbon emissions associated with producing new products.

Visit Pipesales at pipesales.com and follow Pipesales on LinkedIn.
